Structured Cabling Systems

Introducing

DuraNet Structured Cabling System

In today's technology-driven environment, DuraNet provides the premium performance end-to-end network infrastructure solutions based on innovative design and highly advanced technology. Driven by a highly experienced engineering, combining world-class reliability with the unique "25 years performance Warranty", DuraNet is the key to years of trouble-free operation, minimising system downtime and maximising performance.
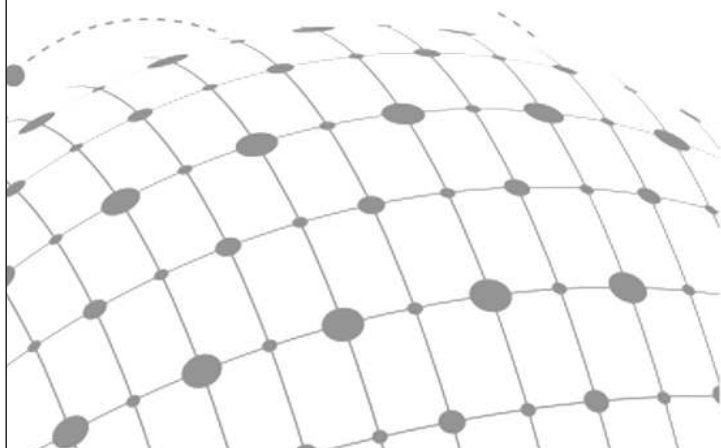

DuraNet®

RELIABLE
END TO END
SOLUTIONS

DuraNet Connecting System offers a diverse product selection of connectivity products that include various types of copper LAN cables and copper components, fiber optical cables and fiber accessories, airblown fiber cable, and data center equipment.

At DuraNet, we offer quality network solutions, from structured cabling system to networking components and data center equipment that support all of today's & future networking infrastructure.

We have the expertise, resources, and relationships to deliver top quality communication products promptly. We have many partnerships with connectivity manufacturers in the voice and data industry worldwide, so you no longer need to look for multiple manufacturers yourself. DuraNet Structured Cabling System has everything you need and provides you one-stop shopping experience.

High Quality standard

The products are manufactured and tested to strict guidelines ensuring a consistent level of performance, designed to exceed the relevant standards.
We are confident of the quality of our products. Regardless of the cables series, our items are manufactured only with the best materials, on the most expertized plants. Under stringiest control, our sample from each batch are tested directly at the plant.

Product Range

Copper End-to-End Solutions

- Indoor and outdoor copper cables
- Copper patch cords and pre-terminated trunk cables
- Keystone jacks, In-line couplers, RJ45 connectors & field termination plugs
- Keystone and IDC patch panels, cable management
- Faceplates and back boxes
- Punchdown, termination and testing tools
- IP 67/68 industrial copper solution

Fiber Optic End-to-End Solutions

- Indoor and outdoor Fiber Optic cables
- Fiber Optic patch cords, pigtails and trunks
- Fiber Optic adapters and connectors
- Fiber Optic panels and adapter panels
- Fiber Optic distribution frames

Cabinets, Racks, Enclosures and Accessories

- Wall mount network cabinets and frames
- Floor standing network cabinets
- Floor standing server cabinets
- Open frame racks
- Rack cable management
- Power distribution units
- Rack cooling

Data Center Solutions

- Data center enclosures and rack system (Server and Networking)
- Data center copper cabling system
- Data center fiber-optic cabling system
- MPO/MTP plug and play fiber-optic system

All products are designed to support current and future network growth needs as well as the integration of developing technologies. Each system contains full connectivity, comprising of cables, patch panels, patch cords, modular jacks, and patch cords that support all LAN applications including VoIP and Power over Ethernet.

All DuraNet products have a 25 years performance warranty when installed as per TIA or ISO/IEC standards. For the products to qualify for warranty, the structured cabling system should be installed as per following :

Meet TIA/EIA commercial building wiring standards.

DuraNet categorized product must be used in concurrence with an equivalent or higher category UL or ETL certified cable.
DuraNet products must be installed as per standard and universally accepted installation guidelines.
If any DuraNet product fails to perform despite above guidelines, it get will replace with a new component free of charge.

The warranty shall be void upon any of the below occurrences:

• If unauthorized cable is used in conjunction with DuraNet cable.
• If unauthorized modifications are made to the product.
• If unreported damages occurred during shipment of the product.
• If the product is damaged due to power surges or water exposure.
